## PUBLICATION ETHICS AND MALPRACTICE STATEMENT

The *African Journal of Food, Agriculture, Nutrition and Development* (AJFAND) is dedicated to following best practices on ethical matters, errors and retractions. The prevention of publication malpractice is one of the important responsibilities of the editorial board. Any kind of unethical behavior is not acceptable, and the *African Journal of Food, Agriculture, Nutrition and Development* does not tolerate plagiarism in any form. Authors submitting articles to the *African Journal of Food, Agriculture, Nutrition and Development* affirm that manuscript contents are original. Furthermore, they warrant that their article has neither been published elsewhere in any language, nor is it under review for publication anywhere.

Editors, authors, and reviewers will also adhere to the *African Journal of Food, Agriculture, Nutrition and Development* publication rules and policies.

### **DUTIES OF EDITOR**

1. **Publication Decisions:** *Based on the review report of the editorial board, the editor can accept, reject, or request modifications to the manuscript.*
2. **Review of Manuscripts:** *Editor must ensure that each manuscript is initially evaluated by the editor for originality, making use of appropriate software to do so. After passing this test, the manuscript is forwarded to two reviewers for single-blind peer review, each of whom will make a recommendation to accept, reject, or modify the manuscript.*
3. **Fair Play:** *The editor must ensure that each manuscript received by the African Journal of Food, Agriculture, Nutrition and Development is reviewed for its intellectual content without regard to sex, gender, race, religion, citizenship, or social status of the authors.*
4. **Confidentiality:** *The editor must ensure that information regarding manuscripts submitted by the authors is kept confidential.*

5. **Disclosure and Conflicts of Interest:** *The editor of the African Journal of Food, Agriculture, Nutrition and Development will not use unpublished materials disclosed in a submitted manuscript for his own research without written consent of the author.*

## **DUTIES OF AUTHORS**

1. **Reporting Standards:** *Authors should present an accurate account of their original research as well as an objective discussion of its significance. Manuscripts will follow the submission guidelines of the journal.*
2. **Originality:** *Authors must ensure that they have written entirely original work.*
3. **Multiple, Redundant, or Concurrent Publications:** *Author should not submit the same manuscript to more than one journal concurrently. It is also expected that the author will not publish redundant manuscripts or manuscripts describing same research in more than one journal.*
4. **Acknowledgement of Sources:** *Authors should acknowledge all sources of data used in the research and cite publications that have been influential in research work.*
5. **Authorship of the Paper:** *Authorship should be limited to those who have made a significant contribution to conception, design, execution or interpretation of the reported study. Others who have made significant contribution must be listed as co-authors. Authors also ensure that all the authors have seen and agreed to the submitted version of the manuscript and their inclusion of names as co-authors.*
6. **Data Access and Retention:** *Authors should provide raw data related to their manuscript for editorial review and must retain such data.*
7. **Disclosure of Financial Support:** *Sources of financial support, if any, must be clearly disclosed.*

8. ***Fundamental Errors in Published Works:*** *If at any point of time, author discovers a significant error or inaccuracy in submitted manuscript, then the error or inaccuracy must be reported to the editor.*
9. ***Conflict of Interest:*** *Authors must reveal any potential, or actual, conflicts of interest that could involve research findings, sponsorship, potential commercial applications, or rights of ownership of data, intellectual property, or invention.*
10. ***Human Subjects Review:*** *Authors must provide detailed information about Institutional Review Board (IRB) authorization that preceded any primary data collection that is used for analysis, interpretation, or is in any way presented in the manuscript. Any direct involvement of human subjects for inclusion in survey, experimental, or mixed-method research must be authorized by a standing IRB. Manuscripts that offer documentation of primary data collection but fail to have documented IRB authorization will not be published in African Journal of Food, Agriculture, Nutrition and Development.*

## **DUTIES OF REVIEWERS**

1. ***Confidentiality:*** *Information regarding manuscripts submitted by authors should be kept confidential and be treated as privileged information.*
2. ***Acknowledgement of Sources:*** *Manuscript reviewers must ensure that authors have acknowledged all sources of data used in the research. Any kind of similarity or overlap between the manuscripts under consideration or with any other published paper of which reviewer has personal knowledge must be immediately brought to the editor's notice.*
3. ***Standards of Objectivity:*** *Review of submitted manuscripts must be done objectively and the reviewers should express their views clearly with supporting arguments.*

4. ***Standards of Competence:*** Reviewers have a proactive obligation to accept review responsibilities only for manuscripts that are consistent with their own scientific and technical competence and experience.
5. ***Promptness:*** In the event that a reviewer feels it is not possible for him/her to complete review of manuscript within stipulated time then this information must be communicated to the editor, so that the manuscript could be sent to another reviewer.
6. ***Conflicts of Interest:*** Reviewers must decline to review any manuscript that presents a conflict of interest regarding intellectual property, sponsorship, commercial interests or obligations, or financial interests of any kind with the author or the manuscript. If in the context of a blind review the reviewer knows fully the origin of the manuscript, the reviewer must declare a conflict of interest and decline the request for review.

The editorial board of *African Journal of Food, Agriculture, Nutrition and Development* gratefully acknowledges that much of this statement of ethical conduct and practice is derived from *The Journal of African Conflicts and Peace Studies* and Scholar Commons. The duties outlined for editors, authors, and reviewers are modeled on the [COPE Code of Conduct for Journal Editors](#).
